

dax—scooter™

www.dax—scooter.com

dax—scooter - is a new phenomenon that developed from our keen interest in exercising and having fun with energetic dogs.

Sled Dog Racing is a growing global sport, with a large network of followers but the size of many three wheel 'Rigs' can cause problems for storage and transportation.

To combat these issues and open the activity to the weekend enthusiast we've developed this innovative, compact, lightweight, professional alternative.

- Folding Design.
 - Removable Antenna.
 - Quick release wheels.
 - Fork and Frame Suspension.
 - Aluminium alloy frame.
 - Adjustable height handle bars.
 - Canadian Maple deck.
 - Standard components allowing for personal customisation.
 - 13.2kg weight.
 - 100% Recyclable product.
